Maskwa Medical Centre

Attention: Ken Drysdale

Subject: Letter of Support

I am reaching out on behalf of the Municipal District of Greenview to express our full support for the development of the Maskwa Medical Centre in northern Alberta. The proposed array of services, along with the inclusion of a teaching clinic affiliated with both the University of Alberta and Northwest Polytechnic, underscores a holistic approach to healthcare provision. This demonstrates a commitment to healthcare education and the pressing need to address the shortage of family physicians in the region. We firmly believe that this initiative will significantly enhance healthcare accessibility and quality in northern Alberta.

Greenview is optimistic that the Maskwa Medical Centre will emerge as an indispensable resource for individuals and families in our community, offering essential healthcare services and fostering overall well-being. We extend our unwavering support to this endeavor and eagerly anticipate its successful realization.

Sincerely,

Tyler Olsen

Reeve, MD of Greenview
